#### ASIA PACIFIC AIRPORT & AVIATION SECURITY SUMMIT

10-12 March RACV Conference Centre Melbourne

Aviation security is a necessity for both passengers and employees. Government and industry need to cooperate to prevent, deter and respond to terrorist threats and other unlawful acts. This on-going threat means stakeholders must focus on the key risks and vulnerabilities to ensure the limited resources available are used as proficiently as possible. The challenge for government and industry is to simultaneously address security, cost, and passenger needs.

It is in this context that Aviation Business Asia Pacific magazine will once again host the annual Asia Pacific Airport & Aviation Security Summit.

#### AVIATION LAW ASSOCIATION CONFERENCE

11-13 March Hilton on the Park Hotel, Melbourne

This leading conference on legal issues affecting the air industry in Australasia, New Zealand and South West Pacific. The year 2009 will be the 28th year of the ALAANZ conference. The theme: "The Aviation Industry in Challenging Times", will cover the many challenges being faced today by the various disciplines of aviation and aviation law.

#### FLIGHT TEST SOCIETY OF AUSTRALIA 2009 SYMPOSIUM

12 March On site at AVALON2009

The Flight Test Society of Australia aims to promote the development of closer communication and understanding between all personnel and organisations having a specialist interest in the field of aeronautical research, development, test and evaluation.

The Society promotes technical advancement in the aerospace field by providing professional education through lectures, displays and presentations and by the exchange of information. The Society also promotes the advancement of flight safety by providing a forum for the expression of professional opinion on flight test activities in particular and flying operations in general.

The Symposium is held annually and brings together military, industry, airline and research personnel engaged in flight test activities. The Symposium programme will include a Keynote address, as well as a number of presentation sessions.

AGM will be held on 13th March 2009 – not open to public.
